Hi Claire,

I think we're really close to being able to post the Workshop 2 summary and checking off the Guiding Principles.

In the summary, there were some edits from Kelly we thought changed things too much that I wanted to talk through with you quickly--See responses in the text.

In the Guiding Principles, Ranei made some really good suggestions that changed the structure of the Guiding Principles some. We'll send this out for another review, but I wanted to go over them with you first, so we can put this in the "finished" bin.

Any time today or next week?

Bobby
